

SOFTMonitor Plug-in for BusinessWorks™ Quick start guide

SOFTWARE RELEASE 2.0.0

MARCH 2016

Monitor your TIBCO Business Works 6.x Process

You're about to add audit monitoring feature to your existing BW process in less than 10 minutes

- ▶ Create your account at [ww.softmonitor.net](http://www.softmonitor.net) : <http://www.softmonitor.net/login>
- ▶ Open an existing BW Eclipse project and Install the plugin, use the repository URL <http://www.softmonitor.net/downloads/plugins/SOFTMonitor/bw6/SOFTMonitor-P2Installer/>
- ▶ Create an "activator process" for your **AppModule** :

- ▶ Drag and drop the « **SetAuditConfig** » activity and "**SetTracingConfig**" activity of "**SOFTMonitor**" palette on the activator process:

- ▶ Add the UUID on the module **SOFTMonitor/AUTH/activationId** property, Enable Tracing, **SOFTMonitor/trace/enable="true"**

- ▶ Save your project, execute the modified process and connect to the SOFT Monitor GUI with your credentials at : <http://www.softmonitor.net/SOFTV3/>
- ▶ Click on <http://www.softmonitor.net/SOFTV3/#events> and perform search, !! **that's It!!!**
- ▶ Full plugin documentation available at : <http://www.softmonitor.net/downloads/plugins/SOFTMonitor/bw6/doc/>
- ▶ On premise server installer available at : <http://www.softmonitor.net/downloads/monitor/>
